

Product Obsolescence Notification

Issue Date: 23 July 2008

OBS0723084D1

Dear Customer,

Avago Technologies regrets to announce the obsolescence of the following products.

AEAS-84AD-LBSC0
AEAS-84AD-LBSF0

The Key Milestones in this obsolescence process are: -

1. **Formal customer notification beginning July 23, 2008**
2. **Final customer order date by Jan 23, 2009**
3. **Final ship date to customer by Jul 23, 2009**

Reasons for Obsolescence

This is part of our product life cycle management program. Only the AEAS-84AD series, low temperature multi-turn absolute encoder module family is affected by this program. Both of the part numbers have been inactive with low demand since November 2005. An alternative product is available for the multi-turn module.

Replacement Part Options

Alternative Product: The AEAT-84AD series, high temperature multi-turn absolute encoder module is the suggested alternative solution. Please refer to the product datasheet in Avago's Website: [Data Sheet - AEAT-84AD 14/12 Bit Multi-turn Encoder Module](http://www.avagotech.com/assets/downloadDocument.do?id=2244)
(<http://www.avagotech.com/assets/downloadDocument.do?id=2244>)

Please note that Avago Technologies reserves the right to limit lifetime buy quantities based on capacity and material availability. If you have any questions about this obsolescence, please do not hesitate to contact your local Avago Technologies sales representative or authorized distributors.
